⚠ WARNING: PULLER DP-T2 & DP-T4

SPECIAL NOTE: Pullers have a Minimum Breaking Load of 2 times the Working Load Limit

- Do not overload beyond Work Load Limit.
- Do not pull cable across any other surface.
- Do not use this product as choker.
- Do not use this product as tow line or load binder.
- Do not support human cargo with this product.
- Do not fail to check product for damage or worn parts before each use: if necessary replace.
- Do not use product if cable wire is rusted or kinked.
- Do not unwind cable completely before or after loading. Always keep cable wrapped two (2) full turns around drum of gear.

⚠ HOISTING WHEELS-PULLEY BLOCKS ⚠

- A potential risk exists when lifting or dragging loads with pulley block assemblies.
- Failure to use pulley block systems properly will cause a load to slip or fall. The result may be serious injury or death.
- Instruct workers to stay alert and to wear correct safety gear in areas where loads are moved or supported with pulley block systems.
- Do not use these products for overhead lifting or unmanned suspension.
- Do not side load pulley blocks.

Do not exceed working load limit
